2nd ESLHO Symposium
**New Developments in
Laboratory Hemato-Oncology**

10-11 October 2013
SS Rotterdam, The Netherlands

Thursday, 10 October 2013

12:30 – 13:30 Registration and Lunch

13:30 – 13:40 Welcome – Jacques J.M. van Dongen

13:40 – 15:15 Session 1: High throughput sequencing (HTS) of Ig-TCR genes

Chair: Ton Langerak, Rotterdam, NL

- Technical developments: general principles and available technologies
Ton Langerak, Rotterdam, NL (25 min)
- Clonality studies via HTS approaches
Michael Hummel, Berlin, DE (25 min)
- Repertoire studies via HTS approaches
Kostas Stamatopoulos, Thessaloniki, GR (25 min)

15:15 – 15:45 Coffee/Tea

15:45 – 17:15 Session 2: PCR and HTS based MRD strategies

Chair: Gianni Cazzaniga, Monza, IT

- Current PCR-based MRD approaches
Jan Trka, Prague, CZ (25 min)
- What can HTS contribute to MRD diagnostics?
Gianni Cazzaniga, Monza, IT (25 min)
- Combined HTS and classical PCR strategies for MRD?
Marco Ladetto, Torino, IT (25 min)

17:15 – 18:30 Keynote Lectures:

- Dissecting primary vs. secondary oncogenetic events in multiple myeloma: contribution of HTS and other molecular technologies
Faith Davies, Sutton, UK (35 min)
- Primary vs. secondary oncogenetic events in CLL
Dan Landau, Boston, MA (35 min)

19:30 – 23:00 *Dinner (free for all registered participants)*

Friday, 11 October 2013

08:30 – 09:15

Keynote Lecture:

- CyTOF technology in immunophenotyping
Kara Davis, Stanford, CA (35 min)

09:15 – 10:45

Session 3: Flow cytometric MRD diagnostics

Chair: Jacques J.M. van Dongen, Rotterdam, NL

- MRD in acute lymphoblastic leukemia
Vincent van der Velden, Rotterdam, NL (25 min)
- MRD in chronic lymphocytic leukemia
Sebastian Böttcher, Kiel, DE (25 min)
- MRD in multiple myeloma
Juan Flores, Salamanca, ES (25 min)

10:45 – 11:15

Coffee

11:15 – 12:45

Session 4: New applications of the EuroFlow concepts

Chair: Alberto Orfao

- Dissection of normal and aberrant differentiation pathways
Alberto Orfao, Salamanca, ES (25 min)
- Monocyte-macrophage subpopulations and their potential for diagnostics
Jacques J.M. van Dongen, Rotterdam, NL (25 min)
- Innovative lymphocyte subset studies in immunodeficiency, inflammation and infection
Martin Perez-Andres, Salamanca, ES (25 min)

12:45 – 12:55

Summary and future perspectives

Jacques J.M. van Dongen

12:55 – 13:00

Closing Remarks

13:00 – 13:45

Lunch

Erasmus MC

University Medical Center Rotterdam

Local Organizing Committee

- J.J.M. van Dongen
- W.M. Comans-Bitter
- B. van Bodegom
- C. Linker
- B. Beukenkamp

Information and organization

b.vanbodegom@erasmusmc.nl

International Scientific Committee

- J.J.M. van Dongen (chair)
- Sebastian Böttcher
- Monika Brüggemann
- Jose Cabeçadas
- Patricia Groenen
- Jerry Hancock
- Elizabeth Hodges
- Tomas Kalina
- Ton Langerak
- Alberto Orfao
- Christiane Pott
- Thorsten Raff
- Tomasz Szczepanski
- Vincent van der Velden

General information

Date
10-11 October 2013

Venue
SS Rotterdam (Former luxury cruise ship)
3^e Katendrechtse Hoofd
3072 AM Rotterdam
The Netherlands

Registration and Information
For more information, accommodation and registration please check the website:
www.hetcongresbureau.nl
(congresagenda).

Registration fee (including Conference Dinner): € 250,-

Cancellation and refunds

All cancellations should be in writing (e-mail) and sent to Ms. Bernice Beukenkamp.

In case of cancellation:

- Until August 30, 2013 a refund is possible minus a service charge of €15.
- Between August 30 and September 25, 2013 you will have to pay 50% of the total amount you are registered for.
- After September 25, 2013 no refund will be possible and the full amount will remain due.

Scientific Work Groups of:
